

AIBA President meets athletes at the Cologne Boxing World Cup

Description

AIBA President Mr. Umar Kremlev continues direct communication with boxers from all over the world. On Saturday, he visited Germany and its famous tournament, the Cologne Boxing World Cup on the day of the finals. He had training with the participants of the competition and gifted them boxing equipment.

'I was enjoying to see so many athletes taking part in the training together. We had a good dialogue today. I am happy to hear their needs and help them to realize their sports dreams. We, as sports managers, should do our best for athletes to be heard and taken care of,' Mr. Kremlev said.

'Germany has a significant history in boxing, and the best traditions should continue. We would do our best to promote boxing in this country and worldwide,' he added.
