

AIBA Responds To IOC, Reforms Delivering Progress

Description

15 September 2021, Lausanne: AIBA has been working on comprehensive reform for some time now and is grateful for the IOC's public acknowledgment that a step forward has certainly been taken in terms of good governance, as confirmed by ASOIF. Wide-ranging reforms are already underway in terms of financial integrity, good governance and sporting integrity, including all the areas mentioned by the IOC and more. Independent experts are involved in each of these sectors. AIBA is confident these reforms will see AIBA meet and even exceed the criteria laid down by the IOC for reinstatement.
